EDUCATION

2020
M.Tech., Civil Engineering
(Environmental Engineering)
from IIT Kanpur with CPI:9.0

2020
B.Tech., Civil Engineering
from IIT Kanpur with CPI:7.3

CORE COMPETENCIES

- Generative & Agentic AI
- Conversational AI & Chatbot Development
- Agentic RAG & HITL Workflow
- Large Language Model (LLM) Deployment & Fine-Tuning
- Product Management
- Product Strategy, Delivery
- Gen AI & LLM Evaluation
- Conversational Memory & Contextual Retrieval Techniques
- User Experience Design
- AI-Driven Automation
- Robotic Process Automation (RPA)

TECHNICAL SKILLS

- Gen AI Concepts:** Agentic Workflows, HITL Workflows, Conversational Memory, LLM Evaluation, Fine-tuning (LoRA/QLoRA), vLLM
- Models Explored:** BERT, NLLB, llama3.2, gemma3.0, gemma4.0, Stella
- Languages:** SQL, C++, Python
- Utilities:** Google Analytics, Whimsical, Robotic Process Automation, Google Cloud, Docker, Power BI, Redis

CERTIFICATIONS

- Azure AI Engineer Associate
- NIIT University- Artificial Intelligence
- Nextleap Product Manager Fellowship

Manvendra Singh Rajput

AI Product Manager

Targeting AI Product Management roles focused on Generative AI, Conversational AI, LLM applications, and enterprise-scale AI solutions, with a proven ability to drive digital transformation, optimize operations, and deliver measurable business impact through AI innovation.

PROFILE SUMMARY

- AI Product Manager with nearly 6 years of experience** in delivering enterprise-scale Generative AI, Conversational AI and intelligent automation solutions in banking and fintech domains.
- Led deployment of AI platforms supporting 50,000+ users and 20,000+ daily queries** using Agentic RAG, LangGraph, FastAPI, Qdrant, Redis and LLM-based architectures.
- Built high-impact AI solutions across Trade, Credit, Compliance, Finance and HR functions**, driving up to 5x productivity gains, 20x faster retrieval and significant reduction in manual effort.
- Skilled in **GenAI product strategy, Agentic Patterns, conversational AI, contextual retrieval, HITL workflows, LLM evaluation, multimodal AI systems and enterprise chatbot development**.
- Contributed to development of **iPal Chatbot**, a customer-facing Conversational AI solution across 8 websites and 4 mobile apps, enabling ₹80 Cr annual value through query classification, KPI analytics, and scalable GCP infrastructure.
- Proven leadership in **managing cross-functional teams, stakeholder engagement, vendor coordination and end-to-end AI product delivery** within large-scale banking environments.

WORK EXPERIENCE

Oct 2020-Present, AI Product Manager at ICICI Bank, Hyderabad

Key Projects:

Bank's First Gen AI PoC

- Pioneered the bank's inaugural Gen AI proof of concept, representing feasibility of RAG techniques and web scraping for local chatbot deployment.
- Deployed Redis on Docker and Streamlit UI, showcasing scalable AI-driven automation across multiple banking functions.

Bank Guarantee Issuance leveraging GenAI

- Engineered an AI-based system to automate Bank Guarantee issuance by extracting and validating key fields from dual-document (pdf & tiff) inputs.
- Integrated clause classification models to flag onerous/negative clauses, enabling proactive risk mitigation.
- Developed FastAPI backend with React frontend (Jodit Editor) for interactive clause highlighting and editing, achieving 92% recall and 78% F1-score.
- Considerably reduced manual review efforts and enhanced operational efficiency.

Trade Chatbot (Agentic RAG with LangGraph)

- Architected Agentic RAG conversational assistant for Trade operations, utilizing Docling chunking, LangGraph HITL feedback and conversational memory.
- Optimized operational response efficiency, reducing query-management time by 10 minutes.
- Defined LLM evaluation metrics to enhance relevance, grounding accuracy and user satisfaction.

Compliance FIU Email Extraction

- Devised end-to-end compliance automation for FIU email processing, incorporating PII anonymization, LLM-based data extraction and structured validation.
- Achieved 93% field-level accuracy and saved 100 hours/month of manual effort.

Finance Chatbot

- Directed ingestion and contextual summarization of 3,000+ financial documents.
- Implemented query classification and memory retention for superior bot performance.
- Delivered results 20x faster, enhancing CFO team operational efficiency.

Compliance RAR Query

- Deployed Text2SQL-driven compliance assistant with PostgreSQL and LLM-based SQL generation.
- Automated RAR data extraction workflows, reducing turnaround time by 20 minutes per request.

CreditBot (Agentic RAG with LangGraph)

- Built Agentic RAG pipeline for Credit team, integrating LangGraph for contextual queries.
- Supported ~900 daily queries, streamlining credit operations.

SOFT SKILLS

- Leadership & Team Collaboration
- Problem-Solving & Adaptability
- Communication & Presentation
- Creative Vision & Strategic Thinking

EXTRA-CURRICULAR ACTIVITIES

- Selected for ACM-ICPC'15 Regionals (India) as part of a 3-member team
- Developed a Windows application from scratch for Microsoft's Code.Fun.Do'15 to assess psychological states
- Received Special Mention for manufacturing the Falkirk Wheel using conventional methods (Casting, Welding, Brazing)
- Presented a report on natural cleaners at Techspark'16, organized by Hindustan Unilever Limited
- Awarded Third Prize in Story Writing at Inter-IIT Cultural Meet'17
- Led hostel to victory in Hindi Literary Events, winning the HSS (Galaxy) trophy in 2016, 2019 and 2020 (Intra-IITK Cultural Competition)

PERSONAL DETAILS

- Date of Birth: 26/04/1996
- Languages Known: Hindi, English
- Address: Financial District, Hyderabad

Boosting Employee Productivity & Operational Efficiency

- Conducted cross-business workshops to showcase Gen AI potential for efficiency.
- Supervised deployment of LLM-based multimodal solutions for HR and Finance, leveraging RAG with Qdrant vector DB.
- Enabled 50,000+ relationship managers to resolve 20,000+ customer queries/day from 50k+ URLs and 5,000+ documents, improving productivity 5x.

Document Summarization Platform

- Developed scalable, queue-based backend using FastAPI and Celery for high-volume document summarization workflows.

HR Automation

- Implemented automated resume screening system with advanced entity extraction to validate qualifications against certificates, reducing turnaround time by 3x.

Centralized LLM Admin Panel

- Spearheaded unified Admin Panel to create LLM-powered chat widgets via intuitive UI.
- Integrated maker-checker workflows for secure document managing and customized solutions for diverse business requirements.

iPal Chatbot (Conversational AI)

- Translated business requirements into technical architecture and collaborated with vendors for deployment across 8 websites and 4 mobile apps.
- Introduced query classification and KPI tracking via Power BI, monitoring 100k weekly queries, achieving Rs. 80 Cr value realization annually.
- Supervised GCP infrastructure and hosted multiple APIs through Google Apigee.

MERVA Chatbot

- Delivered Mortgage Valuation chatbot integrating 9 dynamic reports and daily MIS indices.
- Implemented SSO login and centralized access management.
- Managed SOW closure, UAT testing, JS snippet integration and in-house RPA documentation, identifying opportunities for feature enhancement.

Low-ROI Business Automation Bot

- Independently developed automation bot for low-ROI project, as a self-initiative for testing RPA Software's capability.

APPLIED AI EXPERIMENTS

- Investigated quantization strategies to balance inference efficiency and model performance in large-scale LLM deployments.
- Assessed document and query retrieval methodologies in the Stella model, driving improvements in contextual relevance and clause classification precision.
- Evaluated Meta's NLLB (No Language Left Behind) model to enable robust multilingual translation capabilities within iPal.

POSITION OF RESPONSIBILITY

Coordinator, Hindi Sahitya Sabha at Media & Culture Council, IIT Kanpur | Apr 2017 – Mar 2018

- Mentored 60+ students and organized intra-college competitions, workshops, Hindi learning classes and literary events.
- Initiated and led collaborative activities with other clubs under the Media & Culture Council.
- Guided the club to become one of only two under the Council to achieve podium finishes in all events at Inter-IIT Cultural Meet'17.
